Making Dreams Come True!

Olivia's Princess Collection Spec Sheet

Olivia's Princess Collection is a sophisticated, elegant design that transcends the adolescent through teen years. Emulating a real castle, it fulfills the fantasies of princesses of all ages. On the showroom floor and in any room, this bedroom set will stand out and draw every little girl to its castle turrets and real princess crown in the middle of the headboard. While the collection is beautiful, it is also constructed to the highest standards. All joints are a mix of rabbit, mortise and tenon, and dovetail joints for the strongest of joints and less reliance on nails to last for years to come and moves. The carved brickwork, attention to the littlest details and solid craftsmanship will please parents as much as the unique design.

There is no clearer definition of "unique" than this princess collection simply because **there is no bedroom set like this in the world!** Olivia's Princess Collection is destined to be an heirloom.

The Bed:

Every Full or Twin size bed is constructed with solid woods (Rubber Wood) for the columns. Using solid, hardwood guarantees the longevity required of an heirloom and provides the strength to handle years of youthful play. It resists dents, scratches and many other abuses furniture goes through over the years.

The bed includes hand-carved brickwork and night-lights in the castle turrets. Each and every brick is hand-carved into the wood throughout to mimic real castles and the "peaks" (cone shapes on the headboard) are hand-carved wooden shingled roofs. We are always looking for ways to improve on quality and adding that "light touch" to these beds. In this case, we've turned the footboard towers into jewelry boxes. Each tower is hollowed out now and has a lid with matching cut crystal-like knobs in keeping with the overall design.

Beds can be ordered with a trundle bed or storage drawers, with the sides mimicking the face of the dresser drawers for the collection. If selected, trundle bed sides or storage drawers are made of solid wood and painted matching white of the bed.

The entire bed is painted in our Snow White color and contains no traces of lead. Trim pieces on the headboard, footboard and castle peaks are only available in Pink. Key decorative trim is in metallic gold.

Key Features of the Beds:

- Hand-painted roses and vines are on each post/column where the artist is free within general guidelines to paint rose and vines randomly so that no two posts/columns are the same. The general guidelines are a minimum of roses, vines, leaves and direction the vines "grow".
- A real tiara*! The full sized crown adorns the headboard or fits your little princess' head.
- Carved, not painted, wood bricks on the columns and towers to mimic real castles.
- Footboard towers double as jewelry boxes by lifting the lids (crystal knob).

- **New to the Princess Castle Bed:** These unique peaks on our castle bed are now exact replicas of old castles. Each peak has meticulously hand-carved wooden shingles!
- Snow White paint with colorful decorative trim. We are only now offering it with pink trim and gold highlights.
- Optional matching trundle beds or storage drawers that fit underneath.
- 12V 6/10 Watt night lights in the towers. These come included with each bed. Replacements can be ordered from Olivia & Will, Inc. or are available at most Home Depots or online.

All case goods¹:

Each piece is wonderfully crafted with corner posts of carved brickwork and gold trim to unite the bedroom set with the bed. Mirrors are .25" thick and have 1" bevels around all edges and are a standard feature to continue the elegance and richness of Olivia's Princess Collection. The 14 drawer vanity dresser includes the .25" beveled mirror and two side mirrors that fold to give a princess the desired viewing angles.

All case goods are a mix of solid wood and select veneers and now comply with CARB² standards. All drawer faces, top surfaces and decorative profiles are made in the same select veneers to prevent warping. The large flat surfaces use these veneers as well, an excellent choice for strength and smooth texture after painting. In addition, each drawer "box" is made from European Birch veneer or solid wood using dovetail joints for expert craftsmanship, the best and strongest joints made, and mounted on ball bearing glides/sliders. Cut (multifaceted) crystal-like knobs made from acrylic are standard and the refracted light adds that touch of elegance to the Princess Collection.

All case goods are painted in the matching Snow White of the bed, include hand-painted rose vines, pink round-over trim around the tops' edges and metallic gold for trim/accent pieces.

Product Descriptions

Olivia's Princess Castle Bed

Twin Size Bed: 702-101-2

Dimensions: 46"W x 64"H x 89"L

Full Size Bed: 702-201-2

Dimensions: 61"W x 64"H x 89"L

Both the full and twin size beds are knock downs requiring up to 45 minutes for assembly and are comprised of three main groups: 4 Posts – 2 for the headboard and two for the footboard; headboard and footboard panels and side rails.

4 posts/columns:

- Two headboard posts, or columns, have six parts: a foot, main column, gold finger ring, larger lower tower, small upper tower and peak. All posts and towers have carved brickwork and the peaks have hand-carved wooden shingles carved into them.
- Two footboard posts/columns with five parts: a foot, main column, gold finger ring, large tower (jewelry box) and lid with crystal knob. Both headboard and footboard posts come fully assembled and made from solid Rubber Wood native to South Asia selected because of their natural tendencies for strength, durability and turning on a lathe (making the columns and towers round).

Headboard and footboard Panels: Both panels are made from MDF Rubber Wood veneer¹ and have carved brickwork across the face of the veneer that line up with the posts/columns. The MDF meets the California Air Resources Board's (CARB) objective for Phase 1 to reduce levels of formaldehyde effective January 9th, 2009¹. Pink trims are attached to the panels with screws for easy replacement from shipping damage or moving around.

- ☛ Side Rails: Made from higher density MDF or solid Rubber Wood and are bolted on to the headboard columns once the headboard and footboard panels are assembled to the respective posts/columns. Future assembly of both the head and footboards and side rails will be with slip hooks for faster, easier assembly.

The carved brickwork is 1/16th of an inch deep into solid wood columns and MDF veneer with rose vines hand painted (no two beds are alike) on each post of the bed. On each side of the headboard is a large lower tower and smaller upper tower with 2 candelabra light bulbs and can be removed just as with any normal nightlight bulb to be replaced or can also be colored with Sharpie markers. Replacement bulbs are available through Olivia & Will, Inc., or can be easily purchased at most Home Depots.

Electrical information: Power is supplied through a universal 12Volt AC/DC 3.5Amp power adapter, converting 120V/220V into 12V and is identical to what most laptops use. The princess castle beds use four 12V-6/8/10Watt nightlight bulb. These are **NOT** low wattage nightlight bulbs common in most stores – those are 120V light bulbs and if used, will barely light up if at all because we are using only 12Volts, similar to flashlight batteries. When assembling the headboard columns to the headboard columns, there is a simple small connector that unites both posts/columns and slips behind a long thin strip panel plate.

Everything is included with the bed except a mattress. Mattresses are not sold with the bed and the size of the mattress only matters as it relates to standard twin or full sizes. Thickness is the option of the buyer (9" to pillow-top) and box springs are not necessary because there are 12 slats across. Still want one anyway? Customers can use a "bunk board", which is half the height of a standard box spring and available at most mattress stores. But simply laying plywood across the slats works well too. Again, this isn't necessary, but we do get asked often.

Colors: Snow White w/trims of Pink (note, we no longer offer Lavender or Purple) and Metallic Gold decorative trim.

Crown Tiara: 702-000-0

Dimensions: 6" Diameter

The crown is a genuine silver-plated tiara with authentic rhinestone crystals throughout. However, this will be changing this summer³.

Olivia's Choice of Casegoods

Vanity Dressers with Beveled Edge Mirror: 702-301-14

Dimensions: 62.5"W x 80.75"H x 20.5"D

The Princess Vanity Dresser is a gorgeous piece that completes your princess' collection. With a .25" thick mirror and 1" beveled edge around, the two folding side mirrors reflect the elegance and richness of Olivia's Princess Collection. The 14 drawers are dovetailed to give the princess the space she needs to store her treasures for many years while the adjustable mirrors provide a true reflection of her beauty. Cut crystal-like knobs made from acrylic are standard and add that crowning touch of elegance to Olivia's Princess Collection. Her room will truly be a special place!

Colors: Snow White with pink round-over trim around tops and Metallic Gold highlight decorative trim.

3-Drawer Nightstand: 702-401-3

Dimensions: 27"W x 27"H x 20.5"D

Beautifully crafted, the Princess Nightstand adds another touch of elegance and uniqueness to the room and has the same trim and molding as the vanity and princess castle bed.

Colors: Snow White with pink round-over trim around tops and Metallic Gold highlight decorative trim.

5-Drawer Chest of Drawers: 702-430-5

Dimensions: 40"W x 47"H x 20.5"D

Hardwood tops with sides that incorporate the highest quality veneer, this High Chest of Drawers has drawer "boxes" made from European Birch veneer using dovetail joints for superior strength and craftsmanship, and mounted on smooth, high-quality metal sliders. Cut crystal-like knobs made from acrylic are standard and add that crowning touch of elegance to Olivia's Princess Collection.

Colors: Snow White with pink round-over trim around tops and Metallic Gold highlight decorative trim.

Trundle Bed

Dimensions: 40"W x 13"H x 75"L

The trundle is a knock down and will require assembly. With a comfortable, matching trundle bed right next to her main Princess Castle Bed, your little princess will be able to share her dreams with all of her friends. The trundle fits under both the twin and full beds, with both sides a duplicate to the storage drawers so that when fully under the bed, there is no visual distinction between the two. Be careful though, they may want to spend every night at your house!

Colors: Snow White with cut crystal knobs made from acrylic with brass extension

Storage Drawers

Dimensions: 20.5"D x 13"H x 75"L

The storage drawers are knock downs and will require assembly. This provides two drawers mounted on ball bearing glides/sliders under the twin or full beds for additional space for clothes or to store toys, blankets, fairy tale books, DVDs, etc.

Colors: Snow White

Cushioned Foot Stool

Olivia has selected these matching footstools and chairs to complete your Princess Castle ensemble. Though not shown here, the chair is identical but larger just as a piano bench.

Colors: Snow White with pink rope trim around the box portion of the stool and rings around each leg.

¹ Note: Specifications are subject to changes without notice and at the discretion of Olivia & Will's Fine Children's Furniture.

²Note: All select MDF and HWPW veneers used, meet phase 1 requirements (1/1/09) set forth by California Air Resources Board (CARB). The new standard is covered under section 93120-93120.12, title 17, California Code of Regulations for the purpose of reducing and controlling formaldehyde emissions from composite wood products. Further information on testing methods and requirements can be found online at: <http://www.arb.ca.gov/toxics/compwood/factsheet.htm>.

³ Note: But there is lead in the crown, and while at minute levels meeting US Consumer Product Safety Commission standards for jewelry, we will be changing this to a crown tiara of five white roses with a touch of pink on the edges and white Hydrangeas as filler between. However, when we find out and can comply with the CPSC standards regarding jewelry and labeling, we will offer the crowns as an option to buy separately. There is a plus side of this change in that the silver crowns would tarnish over time, could break from heavy use or falling to the ground or simply couldn't stand the test of most little princesses. The new rose crowns can and are specially crafted – we didn't short anything in the switch.
